>Catastrophes caused by Human Error

Boiler and Pressure Vessel incidents, which can have devastating consequences, are usually the result of human error (improper installation, improper repair, low – water condition, operator error or poor maintenance).

Ware Boiler University's hands-on classes are designed to provide in-depth training on the following:

- Safety
- Efficiency operations
- Maintenance
- Refractory inspections
- Boiler codes
- Troubleshooting controls
- Cost reduction
- Boiler inspections
- Feedwater chemistry
- Applications
- Terminology
- And more

Who should attend?

Anyone involved in the operation, maintenance, planning or purchasing of boilers or boiler related equipment should attend this school.

>Learn From Boiler Industry Professionals . . .

Ware Boiler University instructors are not just Professional Educators they are highly seasoned veterans who have experienced many years working in the boiler industry.
