# STOCK EQUIPMENT

WARE Offers New/Used Equipment In Stock

## BOILER INFORMATION:

Manufacturer Zurn  
Year 1979  
Type Saturated Steam  
Capacity 60,000 PPH  
Pressure 500 PSI  
Burner Todd V5651GOXXX

## FUEL CONSUMPTION:

Natural Gas 80,000 SCFH  
#2 Oil 553 GPH

## ELECTRICAL POWER REQUIREMENTS:

480V, 3Ph, 60Hz, 150A

The boiler is offered with a one (1) year parts and motors warranty (less labor) and the pressure vessel is guaranteed to pass an ASME inspection.

## CONNECTION SIZES:

Main Steam 6" 600# Flanged  
Natural Gas 3" 150# Flanged  
#2 Oil 1-1/2" NPT  
Feedwater 2-1/2" 600# Flanged  
Bottom Blowdown 1-1/2" NPT  
Continuous Blowdown N/A

## CONTROLS:

Honeywell 7800 Series

## EMISSIONS DATA:

NOx .12# / mmBtu (30 PPM)  
SO2 .036# / mmBtu  
CO .15# / mmBtu  
PM

## BOILER OVERALL DIMENSIONS & WEIGHT:

Length/Width/Height 35' / 10' / 13'-10"  
Shipping Weight 90,200 lbs  
Operating Weight

## ADDITIONAL INFORMATION:

RB-709  
O type watertube steam boiler. ASME Section I shell. . Fuel valves & controls meeting FM, IRI standards. Boiler comes complete with gas train, (less regulator), oil train, No. 2 fuel oil pump, secondary LWCO, pressure controls, flame safeguard control, relief valves, feedwater valves, blowdown valves, one (1) main steam stop valve, one (1) stub stack section (height: 6').
